1 # Arcade Game Clone

AWESOME

Nice work with your README file.

```
2
3 # Getting Started:
4
5 To begin, simply run index.html and the game will start.
6
7 # Gameplay
8
9 You use the arrow keys to move your person around the board.
10
11 The goal is to reach the water on the other side.
12
13 Being hit by a bug will remove a life and return you to the start.
14
15 You have 10 lives, and three levels. The speed at which the enemies move incre
16
17 Once you lose all your lives, a button will appear, allowing you to restart th
